

A man can do what he wills, but he cannot will what he wills. -- Arthur Schopenhauer, philosopher

一个人能做他想做的，但不能要他想要的。——叔本华(哲学家)

Iraq invades Kuwait 伊拉克军队进攻科威特

More than 100,000 Iraqi soldiers backed up by 700 tanks invaded the Gulf state of Kuwait on this day in 1990 in an effort to gain more control over the region's lucrative oil supplies. After a military intervention by a United Nations-authorized coalition of forces, Iraqi president Saddam Hussein signed a cease-fire agreement agreeing to surrender all weapons of mass destruction and to pay damages for its seven-month occupation of Kuwait.

XM student wins hip-hop competition in Japan

日本全国街舞大赛 厦门11岁女孩夺冠

Liu Zixuan, an 11-year-old student from the Xiamen Datong primary school, last week won first place in her age group at the Battle After School hip-hop competition in Osaka, Japan. Liu Zixuan is the first teenager from China to earn a title at the event.

ITG Holding Group and Siemens sign a strategic cooperation agreement

国贸控股集团与西门子 签订战略合作协议

The ITG Holding Group signed a strategic cooperation agreement with Siemens last week. According to the agreement, ITG Education (a part of the ITG Holding Group) will partner with Siemens to cultivate 100 managers with the ability to transform enterprises digitally. The partnership will also produce 100 lecturers capable of teaching digital technology in China and overseas.

Fujian's Xiamen-based AI Industry Park officially opens

福建省人工智能产业园厦门园区获授牌

The Xiamen sub-park of the Fujian AI Industry Park officially opened during this year's China Congress on Artificial Intelligence, becoming one of three provincial-level AI industry parks.

The one-square-kilometer park is located in the third phase of the Xiamen Software Park.

The park features 953,000 square meters of R&D floor space. Officials said that the park will focus on expanding application scenarios and building industry clusters in autonomous driving, security, transportation and healthcare.

Technical support for the park will be provided by entities such as the Huawei Kunpeng

Supercomputing Center, Huaqiao University, Jimei University, the Xiamen AI Supercomputing Platform, the Xiamen Institute of Data Intelligence and Xiamen University.
